

# Capacity Building Program

The Fund believes educational resources and support are often as valuable as cash grants, especially to small, emerging organizations.

As part of our mission to provide an alternative concept in philanthropy, the Fund commits considerable staff and volunteer resources to support community activists and organizations with skill-building opportunities, informational resources, and advice through our **Capacity Building Program**. The Capacity Building Program compliments our grant-making by offering accessible workshops and tailored consulting services to ensure grassroots organizers' success in promoting progressive social, economic, environmental and political change. Support provided ranges from fundraising/grant-writing, strategic planning, board development, policies & procedures, community organizing strategies, media strategies, advocacy & lobbying, program development, event planning, 501(c)3 incorporation, and more.

Special thanks to the following funding partners for investing in our Capacity Building Program:

## 2014 Educational Workshops

25 Workshops | 355 Organizations | 507 Unique Attendees

### ADVOCACY

- Worry-Free Advocacy for Nonprofits
- Worry-Free Advocacy AND California Ballot Measure Rules for Nonprofit
